**Subject: Application for Facility Permit/Waste Discharge
Boeing Realty Corporation C-6 Facility**

Dear Gentlemen:

On behalf of the Boeing Realty Corporation, Integrated Environmental Services, Inc. is pleased to submit the attached Facility Permit/Waste Discharge application package for your review and approval. The package includes a fully executed Form 200 application sheet, permit fee of \$400.00, and supporting documentation to allow the Bradley Landfill in Sun Valley, California, to use the C-6 facility's excavated soils for daily cover.

I visited the Bradley Landfill on September 18, two days after our meeting at your office. The attached health-based allowable soil concentrations (Attachment 1 of the Supplemental Documentation) were developed based on conservative construction-worker exposures at the Bradley Landfill. As shown in the waste profile sheets (Attachment 2), and the calculated allowable soil concentrations, the C-6 excavated soils can be used as daily cover and would not pose any adverse impact to the workers.

If you have any questions, or need more information, please contact me directly. Your expedited approval is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Young".

Michael Y. Young, Ph.D.
President
